CLAIM AMENDMENTS

1. (cancelled).
2. (cancelled).
3. (cancelled).
4. (cancelled).
5. (cancelled).
6. (cancelled).
7. (cancelled).

1           8. (previously presented) The system defined in claim 9  
2 wherein said output sides are connected to said pipe through a  
3 valve enabling draining of said pipe following a test.

1           9. (previously presented) A system for controlled  
2 application of fluid pressure to a load in the form of a pipe  
3 closed at its ends to pressure test the pipe, said system,  
4 comprising:

5           at least two pressure converters each having an output  
6 side connectable through respective check valves with a source of a  
7 pressurizing fluid and with said load, a drive side pressurizable
